

## **Saudi Lumat Est. Commitment to Safety and Quality**

We strive to provide our customers with excellent service and high quality products while ensuring that safety and welfare of the public and workers is always at top priority during all our contracting activities. Special attention and commitment is given to protecting human health and the environment in all company operation. Such commitment is beneficial to all parties involved including client, employees, contractors, stakeholders and the public.

### **To honor this commitment, we take on ourselves to undertake the following:**

1. Implement stringent quality control and safety measures at all times.
2. Only install products that follow international manufacturing standards.
3. Procure material only from suppliers approved by local and international regulatory bodies.
4. Confirm quality of products by third-party material testing labs.
5. Monitor these measures regularly.
6. Identify and investigate non – conformances and maintain records.
7. Continually update quality control and safety measures to conform to local and international codes and regulations.
8. Continually update quality and safety measures according to changes in company activities.
9. Increase awareness of quality control and safety measures among employees by training, seminars, and communication.
10. Establish recovery plan for mitigation of any crisis or disruptions.
